

Attached herewith are electronic copies made of KSWT's Political Files. In this document you will see images of papers from their political file. The first file folder of political files they have was for a group Citizens for Responsible Law Enforcement whose message was not political in nature at a national level. I already submitted digital copies of those with comments supporting enhanced online disclosure of broadcaster's public files to the FCC. The only other file folder they have of political files for this year so far is for Restore Our Future a pro Mitt Romney Super PAC, which does communicate a national political message unlike Citizens for Responsible Law Enforcement. Files on the oldest Restore Our Future ad buy of this year in advance of the Arizona Republican Presidential primary is first followed by the rest. All are dated. This document also serves as a complaint against the influence of super PACs in general in influencing our vote through negative advertising and against the pro Romney Super PAC Restoring Our Future over misleading ads that were run on KSWT and other Arizona stations in exchange for money.

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$ . It is shown that the solutions of the system (1) are bounded and tend to zero as  $t \rightarrow \infty$  if the matrix  $A$  is stable. The second part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$  if the matrix  $A$  is not stable. It is shown that the solutions of the system (1) are unbounded and tend to infinity as  $t \rightarrow \infty$  if the matrix  $A$  is not stable.

As you can tell the pro Mitt Romney Super PAC Restoring Our Future bought up a lot of ad time on KSWT in the lead-up to the Arizona Republican Presidential primary, which Mitt Romney's campaign won. According to KSWT's records the Mitt Romney Super PAC was the only group to pay for funding on their channel. Rather than insert all the rest of the pages for every other ad submission they've made which would take longer and make this document not only larger but the file size bigger than it currently is I just want to share the digital copies already inserted into this document with the FCC. I will also be sending either paper copies or digital copies or both to Free Press for qualitative analysis and if they find anything troubling about the files they'll make a complaint to the FCC.
